Professor Sergio Buarque de Hollanda  
Rua Buri, 35  
Pacaembu  
Sao Paulo, S.P., Brasil

Dear Professor Buarque de Hollanda:

Mr. Kenneth Kelly, upon his return from Brasil last month, told me of your splendid contribution to the New York University-University of Sao Paulo Junior Year in Brasil just ended. Let me thank you for this assistance, both in my name and the name of the faculty of Washington Square College of Arts and Science. If we can ever do something in return, please let us know.

It is a great disappointment to us that we have not been able to fund a sixth Junior Year in Brasil. However, I hope that the interruption is only an interruption and that we can continue in the future to send bright young men and women to study Brazilian culture at its source.

Yours very sincerely,

William E. Buckler
